## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Tani et al. (US 5,971,566).

Tani discloses (fig 21) a plasma display with a plasma display panel, a circuit board mounting a drive circuit, a chassis structure with a first chassis member and a second chassis member, a plurality of support portions between the first and second chassis members.

Regarding claim 3, the number of support portions located in the central area is larger than that of edge areas.

Regarding claim 4, the plurality of support portions are projections formed on the first chassis member.
